Lung Cancer Educational Materials

Our easy to understand materials help those facing lung cancer learn about coping with symptoms, side effects, and the emotional aspects of the disease. We provide information directly to callers, e-mail requests, hospitals, and cancer centers.

Our Information Packets for patients and their loved ones are:

- **Customized.** We include information specific to non-small cell or small cell lung cancer, depending on the diagnosis. In addition to our own materials, we draw on a variety of resources from other reputable organizations.
- **Supportive.** Our materials are factual and realistic without being intimidating or negative.
- **Evolving.** We are always creating new materials and discovering resources to include in our packets. We do online research for patients and loved ones based on their requests.
- **Free.** Like all LCA services, our materials are provided at no charge.

Our Outreach Packets for hospitals and cancer centers provide materials for social workers, nurses, and other health care professionals to distribute to patients and their loved ones.

Available materials include:

- *Lung Cancer: Understanding the Diagnosis*
- *Understanding Non-Small Cell Lung Cancer: A Guide for the Patient*
- *LCA Support Services* cards that list what we provide
- *Phone Buddy* brochures that describe the program

LCA's Educational Materials can help.

If you have questions about our educational materials or would like to order some, please call us at **1 (800) 298-2436**.

Lung Cancer Alliance's (LCA) programs are made possible by generous support from people like you. Please consider giving back so that others may continue to receive these free services. LCA is a 501 (c) (3) non-profit organization. All donations are tax-deductible to the fully extent permitted by law.

This series was made possible through the generous support of

© 2010 Lung Cancer Alliance

Lung Cancer Alliance (LCA) is the only national organization to provide advocacy and support exclusively to those diagnosed with or at risk for the disease. Our mission is to lead the movement to reverse decades of stigma and neglect by empowering survivors and their loved ones, raising awareness, and changing health policy. All LCA support services are provided free of charge.
